

TEXAS DEPARTMENT OF TRANSPORTATION

ATTENTION

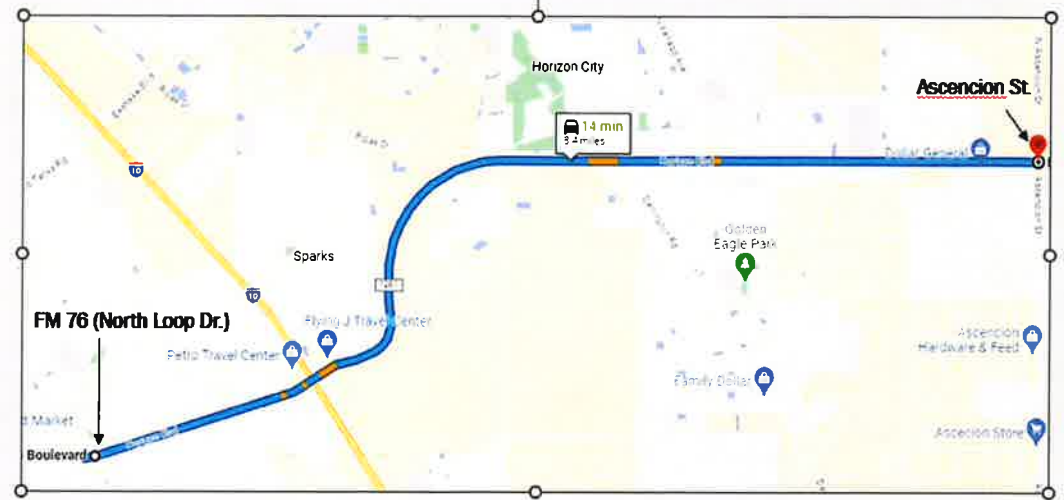

Crews are scheduled to begin a new improvement project on FM 1281 (Horizon Blvd.) Monday, June 26.

The rehabilitation project starts at North Loop Dr. (FM 76) and ends at Ascension St. Work also includes constructing sidewalks, curb, and medians.

Traffic on Horizon Blvd. between Peyton Rd. and Darrington Rd. will be shifted to two-way traffic 24/7 on the EB lanes to construct WB lanes. The same condition will apply to construct WB Lanes. This phase will last up to 3 months.

Alternating lane closures will follow to build sidewalks and medians. Construction between North Loop Dr. and IH-10 will consist of night operations. The project is expected to take 18 months.

Project Location Limits: FM 76 (North Loop Dr.) to Ascension St.

Project Scope: Base repairs, underseal, mill & overlay/inlay, shoulder widening, sidewalks, and pavement markings.

Watch for flaggers, detours, and any additional closures during the duration of the project.

Thank you
