The 2024 Operating Budget reflects the City Council's goal to continue to provide for the consistent improvement of services to the people of Horizon City. The budget reflects efficiency in providing for the health, safety, and well-being of the City's citizens. City operations continue to reflect the necessary expenditures for a growing community while focusing on productivity, safety, and customer service.

There continues to be a need for additional employees to fill gaps in the expertise needed to serve a diverse population and diverse needs. Three FTE's (Full Time Equivalents) are additions to the staffing levels. The FTEs include one Police Officer, one Police Lieutenant, and one Human Resources Staffing Coordinator. Continuing to look to the future, if the City continues to grow, needs can be seen for additional Police Officers, a Facilities/Fleet Manager and additional clerical support.

The budget includes an across the board 5.00% increase in salaries for all administrative employees and a \$2.29 per hour increase for Public Safety Dispatch employees. The Collective Bargaining Agreement includes a \$2.50 per hour increase for all employees covered by the agreement and it is incorporated in the budget. The City continues total funding all health benefits for its employees and continues its contribution to the Texas Municipal Retirement System (TMRS) at 5.75% for the first quarter and 5.60% for the rest of the year. The TMRS rate is determined for each entity based on actuarial studies.

The City will complete Phase 5 of the five-year phase-in process of converting its owned fleet to a leased fleet. Vehicles that were on the schedule to be replaced in FY2022, due to supply chain issues, will be replaced in FY2024. Currently there are 27 under lease. The plan calls for replacement of seven vehicles in Phase 5 along with those deferred from FY2022. This process began in FY2018 as a way to maximize the use of what would normally be capital funds.

The budget considers that the City will continue to sponsor the July holiday event and some small clean up events. These costs are captured in the Special Events Fund.

The City's Debt Service expenditures include principal and interest payments for the 2023 Certificates of Obligation, 2019 Certificates of Obligation, the 2014 Certificates of Obligation, and the 2005 Bond issue. Outstanding principal as of October 1, 2023, will be \$47,690,000.

The Street Maintenance Fund expenditures include plans to resurface portions of several of the older streets, while the Transportation Reinvestment Zone Fund expenditures are dedicated to repaying the City's portion of the costs for Eastlake Phase 2 construction.

Included in this document, although not part of the Operating Budget, are the anticipated Grant Funding, the Economic Development Corporation's approved budget for FY2024, the Tax Increment Reinvestment Zone budget and the Capital Improvement Program through 2026.

CAPTAL IMPROVEMENT PROGRAM

As a growing community, the Town of Horizon City (the "City") desires to incorporate capital planning and budgeting into its annual processes. Capital planning and budgeting will allow staff to review the infrastructure and facility needs of the community in a comprehensive manner, in accordance with the approved Comprehensive Plan, subdivision ordinance and other policies and agreements as approved by the City Council and plan for orderly implementation. Capital planning and budgeting will also allow the City to review its capital needs in conjunction with its annual budget and estimated revenues to approve a plan that is financially feasible.

Capital projects are construction, rehabilitation, or reconstruction projects that extend the useful life of a permanent City asset or change the use of a City asset. City assets are those buildings or infrastructure facilities that the City owns, has been dedicated to the City or that the City leases or otherwise has a contractual interest.

The 2014-2016 Capital Improvement Program was the first Plan approved by the City Council on February 1, 2014 in the amount of \$45,073,650. The projects included in the program consisted of street and right-of-way improvements and drainage improvements. The projects were selected as high priority and high need projects.

As required, the Plan has been updated annually and the current Plan reflects activity for the years 2024-2026. Approval of the updated Plan occurred on September 12, 2023.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements or Comptroller Form 50-884 Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts or Comptroller Form 50-860 Developed Water District Voter-Approval Tax Rate Worksheet.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

SECTION 2: Voter-Approval Tax Rate

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- 1. Maintenance and Operations (M&O) Tax Rate: The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- 2. Debt Rate: The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

SECTION 4: Voter-Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

SECTION 5: Voter-Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the difference between the adopted tax rate and voter-approval tax rate adjusted to remove the unused increment rate for the prior three years. 39 In a year where a taxing unit adopts a rate by applying any portion of the unused increment rate, the portion of the unused increment rate must be backed out of the calculation for that year.

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year before 2020; 40
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a); 41 or .
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120.002(a) without the required voter approval. 42

Individual components can be negative, but the overall rate would be the greater of zero or the calculated rate.

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit. 43

SECTION 6: De Minimis Rate

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit. ⁴⁴ This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. ⁴⁵

SECTION 7: Voter Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.⁴⁶

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year.⁴⁷

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the
 assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster
 occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate
 without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).
